

Be Prepared to Teach Science

by Thom Smith

M.Ed. Educational Leadership, BS Early Childhood Education

engageyourstudents.org

1. **Seek** out science professional development opportunities
2. **Advocate** for beneficial curriculum and supplies
3. **Refine** science units and student experiences continuously
4. **Elevate** your profession by knowing the data and taking action to improve science education where necessary
5. **Embrace** students' questions and allow for discovery
6. **Excel** in your science knowledge to teach effectively
7. **Allow** mistakes and messes
8. **Reflect** on your students' successes and failures as well as your own - and act upon them
9. **Request** observations and feedback on your science instruction performance
10. **Strive** for science to be an enjoyable and successful experience for all of your students

"All truths are easy to understand once they are discovered; the point is to discover them." - Galileo Galilei
